

SAP Data Engineering

Datasphere, Embedded Analytics & CDS Views, and SAP BDC — the engineering side of the SAP data stack.

MODULES

MODULE	DURATION	LEVEL	PRICE
SAP Datasphere Foundations	3 weeks	Beginner	\$120
Embedded Analytics & CDS Views	3 weeks	Intermediate	\$150
Introduction to SAP BDC	2 weeks	Beginner	\$95

SAP Data Engineering Bundle

All three modules together — the full engineering picture of the SAP data stack.

Save \$66

\$299

WHY THIS PATH

See how Datasphere, embedded analytics, and BDC fit together — not just how to use one tool in isolation. Build real CDS views you'd actually ship in an S/4HANA environment, not toy examples. Take one module for a specific need, or the full bundle for a complete picture of SAP's modern data platform.
